(not to be submitted to the USPTO)

NOTES:

Amended RCE is not a new application, and filing an RCE will not result in an application being accorded date.

Filing Qualifications:

The application must be either:
• A utility or plant application filed on or after June 8, 1995. The applicant cannot receive priority from another application.
• An application filed before June 8, 1995, a design application, or a patent application under 37 CFR 1.114(e).

(c) *Prior art.*

Filing Requirements:

Prosecution in the application must be closed. Prosecution is closed if the application is under appeal, or the last Office action (e.g., an Office of allowance, or an action that otherwise closes prosecution in that application) is final (see *Ex parte Quayle*). See 37 CFR 1.114(b).

A submission and a fee are required at the time the RCE is filed. If reply to an Office action under 35 U.S.C. 132 is outstanding (i.e., the application is under final rejection), the submission must meet the reply requirements set forth in 35 U.S.C. 132. If the Office action is not final, the submission can be an information disclosure statement, an argument, or new evidence. See 37 C.F.R. 1.114(c). The submission may be a previously filed amendment (amendment after final rejection).

WARNINGS:

Request for Suspension of Action:

All ROE filing requirements must be met before suspension of action is granted. A request for a suspension under 37 CFR 1.103(c) does not satisfy the submission requirement and does not permit the required submission to be suspended.

Improper RCE will NOT toll Any Time Period:

Before Appeal - If the RCE is improper (e.g., prosecution in the application is not closed or the submission or the Office action is not timely filed) and the application is not under appeal, the time period set forth in the law will continue to run and the application will be abandoned after the statutory time period has expired if the Office action is not timely filed. No additional time will be given to correct the improper RCE.

Under Appeal - If the RCE is improper (e.g., the submission or the fee has not been filed) and the application is under appeal, the improper RCE is effective to withdraw the appeal. Withdrawal of the appeal results in abandonment of the application depending on the status of the claims. If there are no allowable claims, the application is abandoned. If there is at least one allowed claim, the application will be maintained on the allowed claim(s). See MPEP 1215.01.

See MPEP 706.07(h) for further information on the RCE practice.
